FINANCIAL HIGHLIGHTS

Our revenue decreased from RMB1,799.8 million in the first half of 2021 to RMB1,191.4 million in the first half of 2022. Gross profit for the first half of 2022 was RMB622.4 million, and gross profit for the first half of 2021 was RMB1,045.5 million. Net profit for the period was RMB151.9 million in the first half of 2022, as compared to net profit for the period of RMB387.1 million in the first half of 2021. Our adjusted EBITDA for the period was RMB282.0 million in the first half of 2022, compared to adjusted EBITDA of RMB625.7 million in the first half of 2021; our adjusted net profit^(Note) was RMB233.7 million in the first half of 2022, compared to adjusted net profit^(Note) of RMB484.2 million in the first half of 2021.

BUSINESS REVIEW

In the first half of 2022, the entertainment industry faced immense difficulties and challenges due to the resurgence of COVID-19 pandemic. We continued to refine our operations to deliver high-quality products and services and achieved industry-leading performance in both the number of and box office of the movies in which we participated in the first half of 2022. In addition to our abundant content reserves in our pipeline, many movies in which we participated are expected to be released within 2022. Besides, our online entertainment ticketing services remained stable, while our other business lines are maturing. We have enhanced our business resilience and further demonstrated our profitability capability.

Entertainment Content Services

In the first half of 2022, the total box office for the China's movie market decreased by 37.68% to RMB17.18 billion, compared with the same period last year, resulting from the severe impact brought by the pandemic. In particular, from March to May, with the average operating rate of movie cinemas nationwide once dropping to below 50%, the gross box office suffered a year-over-year drop of about 80%. At the same time, certain movies slated for screening had to be rescheduled or postponed.

Despite the headwinds, we made continuous efforts in cultivating movie content and improving our operational capabilities, and we achieved industry-leading performances in both the number of and box office sales for the movies that Maoyan produced/distributed. During the reporting period, Maoyan participated in the production/distribution of 15 movies, including 6 of which the Company acted as a lead distributor. The percentage of the total gross of our participated movies to China's movie box office in first half of this year has recovered to almost the same level in the same period of 2019. In addition, we continued to enhance our involvement in the top-tier movies released during major seasons. For example, we participated in *Embrace Again* (穿過寒冬擁抱你) and *G Storm* (反貪風暴 5: 最終章), which ranked first and second, respectively, at the box office during the New Year's Day season. Moreover, we participated in 3 movies among the top 5 in terms of the box office in the Spring Festival season. Among which, "*Too Cool To Kill* (這個殺手不太冷靜)", for which we acted as both the producer and lead distributor, achieved total box office sales of RMB2.63 billion.

Note: In the first half of 2022 and 2021, we defined adjusted net profit as net profit for the six months adjusted by adding back share-based compensation and amortization of intangible assets resulting from business combinations.

CEO's Statement

Since June 2022, the pandemic has stabilized, and the operating rate of movie theatres has gradually recovered to over 80%. Maoyan is well positioned to proceed with all our participated projects with abundant reserves of rich and diverse content. For example, movies where Maoyan has served as the producer/distributor, such as *My Blue Summer* (暗戀•橘生淮南), *Lighting Up The Stars* (人生大事), *Moon Man* (獨行月球) and *Warriors of Future* (明日戰記), have already been released in succession. Others include *Belle* (雀斑公主), *Give Me Five* (哥·你好), *The Procurator* (檢察風雲), *Post Truth* (保你平安), *Too Beautiful To Lie* (請別相信她), *Journey to the West* (宇宙探索編輯部), *High Forces* (危機航線), *The Tipping Point* (掃黑行動), *Better Man* (絕望主夫), *Victims* (被害人), *Who's the Suspect* (拯救嫌疑人) and *Full River Red* (滿江紅) have either been scheduled for release or are in the process of being scheduled.

During the reporting period, we also produced a number of premier TV series and online movies. For example, *Out of Court* (庭外), our self-produced legal drama TV series, was released exclusively on Youku in July 2022 and achieved excellent reputation. We also participated in *Hello, The Sharpshooter* (你好，神槍手), *Leverage* (檳榔) and *Babel* (通天塔), which have been broadcast on different platforms, and all performed very well. In addition, *The King of Hot GUO* (火鍋之王), another online movie, for which we participated in the production, will be scheduled to be released soon.

Furthermore, leveraging our considerable and professional experience in promotion and distribution and our fine-tuned service matrix, many of our products and tools have been widely recognized by industry partners and increased in popularity. For example, during the reporting period, the projects served by our promotion and distribution products, such as "Cloud Block Booking" (雲包場) and "Lead Appreciation" (助力主創), maintained an encouraging growth momentum. In particular, "Cloud Block Booking" (雲包場) has been used by almost all domestic movies grossing over RMB100 million in box office. Furthermore, our promotion and distribution products further demonstrated their impressive commercial value. Deeply cooperating with hundreds of influential creators and thousands of incubated Key Opinion Consumers (KOC), our content marketing team provided quality marketing services to nearly 80% of the movies with over RMB100 million in box office during the reporting period. We also launched a variety of innovative promotion and distribution tools, such as "Box Office Estimates by Media" (第三方媒體超前票房預測) and "Same-period Performance Comparison" (同檔期對比), aiming to actively help improve the industry's level of refinement and efficiency of distribution.

Online Entertainment Ticketing Services

During the reporting period, we continued to enhance our platform's service capacity and further optimized the ticketing system; combined with our reasonable cost and expense control initiatives, we successfully maintained our industry-leading position. Meanwhile, we have proactively tracked the industry's needs, striving to provide all-round assistance and support for the development and recovery of the industry. We helped more than 70% of the movie cinemas nationwide improve their customer acquisition efficiency through our services, including membership promotions and package sales. Besides, acting as an exclusive ticketing provider for the 12th Beijing International Film Festival (第十二屆北京國際電影節), we offer the audiences with premier ticketing services. Since June, as the movie market has been gradually recovering, our movie ticketing business has been picking up accordingly. Moving forward, with constant effort on the operation and service capability cultivation, we are committed to continuously upgrading audiences' experience and consumption vitality while providing our industry partners with better services.

CEO's Statement

As an important market player, we made steady progress in our live entertainment business, expanding the offering categories and refining operation efficiency. Especially, we focused on cultivation in the emerging local entertainment categories, including talk shows, crosstalks, immersive theaters, exhibitions, family shows, music festivals. During the reporting period, the GMV of our live entertainment business recovered to over 80% for the same period last year. In addition, we achieved breakthrough growth in some verticals, such as talk shows, family shows and immersive theaters. Among these, the GMV of our talk shows tripled compared with the same period last year. Furthermore, we have actively been exploring new forms of entertainment catering to the young generation and achieved steady progress in many projects we engaged as a producer. For example, we developed a series of shows, including "The Grand Theater" (玩味放映廳), "The Grand Museum" (玩味博物館) and "The Grand Music" (玩味音律), following our success of "The Grand Expedition" (玩味探險家), an immersive food interactive drama, which achieved excellent performance in both box office and market reputation. Besides that, we have completed the initial preparation for a new Maoyan-produced immersive gaming drama "Dream Cruise" (明珠傳奇), and it will debut at an appropriate time.

Advertisement Services and Others

During the reporting period, we constantly improved our operational capability and efficiency, and continued to enhance our commercialization ability. Considering the distinct characters of different movies and the changing market conditions, we launched a variety of rich and innovative promotion campaigns. Meanwhile, we enhanced our distribution capability by further expanding our promotion and distribution channels. Currently, we have established deep cooperations with many high-quality platforms, such as Weibo, Douban and Xiaohongshu. The total users of Maoyan mini-program ecosystem, covering WeChat, Weibo, Douyin, Baidu and Kuaishou, etc., have exceeded 600 million. Moving forward, we will continue to leverage our capabilities of the full-channel marketing and industry's leading platform, and provide matrixed and customized services for the promotion and marketing of film and TV projects.

Our Maoyan Research Institute continued to improve the data service capabilities and conducted extensive research on various themes. We also extended our research services to IP studies, including adaption, development and testing of IP. In addition, through profound analysis on market conditions and successful movies during the pandemic, we released various in-depth research reports, including pandemic-related reports, which provided our industry partners with valuable market information and insights into industry development trends.

OUTLOOK

Benefiting from the effective control of the pandemic in China, business resumption across all fields is progressing steadily. The operating rate of movie theatres in China has recovered to more than 80% in early June. As of the date of this report, the summer-holiday box office has reached about RMB7.9 billion, which exceeded the same-period box office in last year. We maintain our full confidence in the market's recovery.

CEO's Statement

In a complex and changing market environment, we will continue to grow and develop within the pan-entertainment industry with the firm execution of our core strategy of "technology + pan-entertainment". Through mining and producing high quality content with a positive social value proposition, combined with enhanced infrastructure and service capability, we expect to further unlock Maoyan's value in the industry. Meanwhile, we will constantly explore new initiatives, develop diverse growth drivers and optimize our layout of pan-entertainment industrial chain. Furthermore, by further enhancing and utilizing the synergy among our business lines, we will be able to maintain risk resistance capabilities and capture the market growth opportunities following the industry's recovery, further enhancing our competitive advantages.

Last but not least, we would like to express our sincere gratitude to all of our colleagues, shareholders and industry partners for their trust and support. Let us forge ahead together and create greater value for the industry!

Management Discussion and Analysis

Revenue

Our revenue decreased from RMB1,799.8 million in the first half of 2021 to RMB1,191.4 million in the first half of 2022. This decrease was primarily due to decrease in revenue from online entertainment ticketing services, entertainment content services and advertising services and others as affected by the volatile COVID-19 pandemic situation during the first half of 2022. The following table sets forth our revenue by service in the first half of 2022 and 2021.

	Six months ended June 30,			
	2022 RMB million (Unaudited)	%	2021 RMB million (Unaudited)	%
Revenue				
Online entertainment ticketing services	592.3	49.7	1,013.5	56.3
Entertainment content services <small>(Note)</small>	533.4	44.8	660.1	36.7
Advertising services and others	65.7	5.5	126.2	7.0
Total	1,191.4	100.0	1,799.8	100.0

Note: This amount included fair value gain on the Group's investments in movies and TV series amounting to RMB11.1 million for the six months ended June 30, 2022 (for the six months ended June 30, 2021: fair value loss of RMB8.3 million).

Online entertainment ticketing services

Revenue from online entertainment ticketing business decreased from RMB1,013.5 million in the first half of 2021 to RMB592.3 million in the first half of 2022. Such decrease was mainly due to the impact of the pandemic in the first half of 2022, resulting in a decrease in the operating rate of cinemas nationwide as compared to the same period last year. Especially for March 2022 to May 2022, during which the operating rate of cinemas nationwide was once lower than 50% (according to the data from Maoyan Pro).

Entertainment content services

Revenue from entertainment content services decreased from RMB660.1 million in the first half of 2021 to RMB533.4 million in the first half of 2022. Such decrease was mainly due to the impact of the pandemic in the first half of 2022, the adjustment of a number of films we participated in production, promotion and distribution, or postponement of the release plans.

Advertising services and others

Revenue from advertising services and others decreased by 47.9% from RMB126.2 million in the first half of 2021 to RMB65.7 million in the first half of 2022, mainly due to the decrease in advertisement placement as a result of the decrease in the advertising market demand since the pandemic.

Management Discussion and Analysis

Cost of Revenue

Cost of revenue decreased by 24.6% from RMB754.3 million in the first half of 2021 to RMB569.0 million in the first half of 2022. The decrease in cost of revenue was primarily due to the decrease in the cost of ticketing system (which was in line with the decrease in revenue from our online movie ticketing services); the decrease in the cost of internet infrastructure (which was in line with the level of investment in infrastructure cost under our normal operation); and the decrease in content promotion and distribution costs.

The following table sets forth our cost of revenue by amount, as a percentage of total cost of revenue and as a percentage of total revenue for the period indicated:

	Six months ended June 30,					
	2022			2021		
	RMB million (Unaudited)	% of cost	% of revenue	RMB million (Unaudited)	% of cost	% of revenue
Ticketing system cost	143.4	25.2	12.1	246.5	32.7	13.7
Internet infrastructure cost	89.7	15.8	7.5	122.7	16.3	6.8
Content distribution and promotion cost	153.7	27.0	12.9	199.1	26.4	11.1
Content production cost	60.9	10.7	5.1	41.4	5.5	2.3
Amortization of intangible assets	68.9	12.1	5.8	68.9	9.1	3.8
Depreciation of property, plant and equipment	5.1	0.9	0.4	6.8	0.9	0.4
Other expenses	47.3	8.3	4.0	68.9	9.1	3.8
Total	569.0	100.0	47.8	754.3	100.0	41.9

Gross Profit and Gross Margin

Our gross profit decreased from RMB1,045.5 million in the first half of 2021 to RMB622.4 million in the first half of 2022, and our gross profit margin was 58.1% and 52.2% in the first half of 2021 and 2022, respectively. The changes in our gross profit and gross profit margin were primarily due to the decreased revenue as a result of the pandemic, while certain fixed costs which have been included, by its nature, could not be reduced in proportion to our revenue, resulting in the decrease in our gross profit and gross profit margin.

Selling and Marketing Expenses

Selling and marketing expenses decreased by 14.0% from RMB320.8 million in the first half of 2021 to RMB275.8 million in the first half of 2022, primarily due to the decrease in user incentives.

General and Administrative Expenses

General and administrative expenses increased by 0.2% from RMB178.6 million in the first half of 2021 to RMB179.0 million in the first half of 2022, basically remained stable.

Management Discussion and Analysis

Net Impairment Losses on Financial Assets

We recorded net impairment losses on financial assets of RMB4.6 million in the first half of 2022, compared to net impairment losses on financial assets of RMB41.6 million in the first half of 2021. We evaluated the expected credit loss of financial assets as at June 30, 2022 on prudent basis, and made provisions for the impairments to reflect the impact of the COVID-19 pandemic on the macro-economic environment, the entertainment industries and the Group's business partners.

Other Income and Other Losses, Net

We recorded other income and other losses, net of RMB21.7 million in the first half of 2022, compared to other income and other losses, net of RMB5.0 million in the first half of 2021, primarily due to an increase in government grants received in the first half of 2022 compared to the first half of 2021.

Operating Profit

As a result of the foregoing, our operating profit was RMB184.7 million in the first half of 2022, compared to an operating profit of RMB509.5 million in the first half of 2021.

Finance Income/(Costs), Net

We had net finance income of RMB7.4 million in the first half of 2022, compared to net finance costs of RMB1.3 million in the first half of 2021. Such turnaround was mainly due to the decrease in net finance costs as a result of our improved capital management efficiency.

Income Tax Expenses

Income tax expense was RMB39.4 million in the first half of 2022, compared to income tax expense of RMB120.1 million in the first half of 2021. This was mainly due to the decrease in operating profit.

Non-IFRS Financial Measures

To supplement our consolidated financial statements which are presented in accordance with IFRS, we also use EBITDA/adjusted EBITDA and adjusted net profit as additional financial measures, which are not required by, or presented in accordance with IFRS. We believe that these non-IFRS measures, which have excluded certain effects of one-off or non cash projects and M&A transactions for the previous years, facilitate comparisons of operating performance from period to period and company to company by eliminating potential impacts of items that our management does not consider to be indicative of our operating performance. We believe that these measures provide useful information to investors and others in understanding and evaluating our consolidated results of operations in the same manner as they help our management. However, our presentation of the EBITDA/adjusted EBITDA and adjusted net profit may not be comparable to similarly titled measures presented by other companies. The use of these non-IFRS measures has limitations as an analytical tool, and you should not consider them in isolation from, or as substitute for analysis of, our results of operations or financial condition as reported under IFRS.

Management Discussion and Analysis

Adjusted Net Profit, EBITDA, and Adjusted EBITDA

The following tables reconcile our adjusted net profit, EBITDA and adjusted EBITDA for the periods presented to the most directly comparable financial measure calculated and presented in accordance with IFRS:

	Six months ended June 30,	
	2022 RMB million (Unaudited)	2021 RMB million (Unaudited)
Reconciliation of net profit to adjusted net profit		
Net profit for the period	151.9	387.1
Add:		
Share-based compensation	12.7	28.0
Amortization of intangible assets resulting from business combinations	69.1	69.1
Adjusted net profit^(Note)	233.7	484.2

Note: In the first half of 2022 and 2021, we defined adjusted net profit as net profit for the six months adjusted by adding back share-based compensation and amortization of intangible assets resulting from business combinations.

Management Discussion and Analysis

	Six months ended June 30,	
	2022 RMB million (Unaudited)	2021 RMB million (Unaudited)
Reconciliation of operating profit to EBITDA and adjusted EBITDA		
Operating profit for the period	184.7	509.5
Add:		
Depreciation of property, plant and equipment	8.2	10.9
Amortization of intangible assets	69.6	70.5
Depreciation of right-of-use assets	6.8	6.8
EBITDA^(Note)	269.3	597.7
Add:		
Share-based compensation	12.7	28.0
Adjusted EBITDA^(Note)	282.0	625.7

Note: In the first half of 2022 and 2021, we defined EBITDA as operating profit for the period adjusted for depreciation and amortization expenses. We added back share-based compensation to EBITDA to derive adjusted EBITDA.

Management Discussion and Analysis

OTHER FINANCIAL INFORMATION

Capital Structure

The Company continued to maintain a healthy and sound financial position. Our total assets changed from RMB11,028.3 million as of December 31, 2021 to RMB10,669.7 million as of June 30, 2022, whilst our total liabilities decreased from RMB3,040.7 million as of December 31, 2021 to RMB2,483.2 million as of June 30, 2022. Liabilities-to-assets ratio decreased from 27.6% as of December 31, 2021 to 23.3% as of June 30, 2022.

As of June 30, 2022, we pledged bank deposits of RMB59.6 million as securities for bank borrowings.

Liquidity, Financial Resources, and Gearing

We have historically funded our cash requirements principally from cash generated from operations, and to a lesser extent, equity and debt financing. We adopt prudent treasury policies in cash and financial management. To achieve better risk control and minimise cost of funds, our treasury activities are centralised. Cash is generally placed in short-term deposits mostly denominated in RMB or USD. Our liquidity and financing requirements are reviewed regularly. We will consider new financing while maintaining an appropriate level of gearing in anticipation of new investments or maturity of bank loans.

As of June 30, 2022, we had cash and cash equivalents and other forms of bank deposits of RMB2,419.6 million, which were predominantly denominated in RMB and USD. Going forward, we believe that our liquidity requirements will be satisfied by using a combination of cash generated from operating activities, other funds raised from the capital markets from time to time and the net proceeds received from the global offering of the Company.

As of June 30, 2022, our total borrowings were approximately RMB340.3 million, which were all bank borrowings denominated in RMB. During the Reporting Period, the Group has repaid the borrowings at maturity as scheduled prior to the date due. The following table sets forth further details of our banking borrowings as of June 30, 2022:

	RMB million	Interest rate
Secured	149.0	1.70%~2.36%
Guaranteed	191.3	3.55%~4.00%
Total	340.3	N/A

As of June 30, 2022, we had unutilized banking facilities of RMB423.0 million.

As of June 30, 2022, we did not have any significant contingent liabilities.

Management Discussion and Analysis

We monitor capital on basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings and financial liabilities at fair value through profit or loss, net of cash and cash equivalent, restricted bank deposits and term deposit with original maturity over three months. Total capital is calculated as “equity” as shown in the consolidated statement of financial position. As at June 30, 2022 and December 31, 2021, the Group has a net cash position.

Capital Expenditure

Our capital expenditure primarily included purchase of property, plant and equipment and intangible assets. Our capital expenditure decreased by 73.2% to RMB2.6 million in the first half of 2022 from RMB9.7 million in the first half of 2021. We plan to fund our planned capital expenditure using cash generated from operations.

Material Acquisitions, Disposals and Future Plans for Major Investments

The Group did not have any plans for major investments and capital assets as of June 30, 2022. During the six months ended June 30, 2022, we did not have any material acquisitions and disposals of subsidiaries and affiliated companies.

Major Investments Held

On March 12, 2019, we entered into a subscription agreement and a strategic cooperation agreement with Huanxi Media Group Limited. Pursuant to the subscription agreement, we have conditionally agreed to subscribe for, and Huanxi Media Group Limited has conditionally agreed to allot and issue to us, 236,600,000 shares at a total consideration of HK\$390,555,620. Under such agreements, we planned to establish strategic cooperation with Huanxi Media Group Limited in entertainment content services. On March 19, 2019, the subscription was completed and the consideration was duly paid. For further details, please see our announcement dated March 13, 2019 and our Annual Report for 2018 and 2019. As at June 30, 2022, we held 5.7% equity interest of Huanxi Media Group Limited.

Foreign Exchange Risk Management

Our businesses are principally conducted in RMB, which is exposed to foreign currency risk with respect to transactions denominated in currencies other than RMB. Foreign exchange risk arises from recognized assets and liabilities and net investments in foreign operations. We manage foreign exchange risk by performing regular reviews of our foreign exchange exposures and try to minimize these exposures through natural hedges, wherever possible, and may enter into forward foreign exchange contracts, when necessary. We did not enter into any forward contract or other financial instruments to hedge our exposure to foreign currency risk in the first half of 2022.

Management Discussion and Analysis

Employees and Remuneration Policy

As of June 30, 2022, we had 787 full-time employees, all of whom were based in mainland China, primarily at our headquarters in Beijing, with the remainder in Shanghai and various other cities in China.

Committed to establishing a competitive, fair remuneration and benefits system, we continually refine our remuneration and incentive policies through market research and comparison with our competitors, in order to ensure that our employees receive competitive remuneration packages. As required under the PRC regulations, we participate in housing fund and various employee social security plan that are organized by applicable local municipal and provincial governments. We also purchase commercial health and accidental insurance for our employees. We also provide regular and specialized trainings tailored to the needs of our employees in different departments, so that our employees may stay up to date with the latest industrial developments and technological advancements. In order to incentivize our Directors, senior management and other employees for their contribution to our Group and to attract and retain suitable personnel, we have granted and planned to continue to grant share-based incentive awards to our employees in the future to incentivize their contributions to our growth and development.

As required under the PRC regulations, we participate in housing fund and various employee social security plans that are organized by applicable local municipal and provincial governments, including housing, pension, medical, maternity, work-related injury and unemployment benefit plans, under which the Group and the PRC based employees are required to make monthly contributions to these plans at specified percentages of the salaries of the employees. There was no forfeited contribution utilized to offset employers' contributions for the six months ended June 30, 2022, and there was no forfeited contribution available to reduce the contribution.

EMPLOYEE INCENTIVE SCHEMES

Pre-IPO Share Option Scheme

The Pre-IPO Share Option Scheme was adopted by the Company as a continuation and restructuring of the employee share incentive scheme originally adopted by Tianjin Maoyan Weying on November 8, 2016 (the "2016 ESOP") following the Reorganization, which was established to recognize and reward the contribution of the participants to the growth and development of Tianjin Maoyan Weying. The 2016 ESOP was terminated as a result of the adoption of the ESOP Plan. The terms of the Pre-IPO Share Option Scheme are not subject to the provisions of Chapter 17 of the Listing Rules as our Pre-IPO Share Option Scheme will not involve the grant of options by us to subscribe for new Shares of the Company.

Movements of the options granted by the Company pursuant to the Pre-IPO Share Option Scheme during the Reporting Period are as follows:

QUALIFICATION REQUIREMENTS

Updates in Relation to the Qualification Requirements

On December 11, 2001, the State Council promulgated the Regulations for the Administration of Foreign-Invested Telecommunications Enterprises (the “FITE Regulations”), which were amended on September 10, 2008, February 6, 2016 and March 29, 2022. According to the FITE Regulations, foreign investors are not allowed to hold more than 50% of the equity interests in a company providing value-added telecommunications services. In addition, though based on the latest amendment of the FITE Regulations promulgated on March 29, 2022 which came into effect on May 1, 2022, a foreign investor who invests in a value-added telecommunications business in the PRC no longer need to possess prior experience in and a proven track record of operating value-added telecommunications businesses overseas (the “Qualification Requirements”), the guidance memorandum on the application requirement for establishing foreign-invested value-added telecommunications enterprises in the PRC has not yet be updated by the Ministry of Industry and Information Technology of the PRC on its official website and no further implementing regulations or rules to the latest FITE Regulations have been promulgated. According to the current guidance memorandum on its website, an applicant is required to provide, among other things, its annual reports for the past three years, satisfactory proof of the Qualification Requirements and business development scheme. The current guidance memorandum does not provide any further guidance on more proof, record or document required to support the proof satisfying the Qualification Requirements. Further, the current guidance memorandum does not purport to provide an exhaustive list on the application requirements.

Efforts and Actions Undertaken to Comply with the Requirements for Foreign Investors Investing Value-added Telecommunications Business in the PRC

Despite the lack of clear guidance or interpretation on the requirements for foreign investors investing value-added telecommunications business in the PRC and no further implementing regulations or rules to the latest FITE Regulations have been promulgated, referring to the effective guidance memorandum, we are gradually building up our track record of overseas telecommunications business operations and had taken the following steps:

- we set up a subsidiary in Hong Kong, namely Hong Kong Maoyan Live Entertainment Limited, to operate our overseas online ticketing business;
- we have successfully registered a series of trademarks in Hong Kong;
- we are operating our overseas website, www.entertainmentplus.hk, which is positioned to further attract and build up overseas customer base; and
- we will continuously monitor future regulatory and policy changes and to take further actions when applicable.

Report on Review of Interim Financial Information

羅兵咸永道

To the Board of Directors of Maoyan Entertainment
(incorporated in the Cayman Islands with limited liability)

INTRODUCTION

We have reviewed the interim financial information set out on pages 27 to 80, which comprises the interim condensed consolidated statement of financial position of Maoyan Entertainment (the "Company") and its subsidiaries (together, the "Group") as at June 30, 2022 and the interim condensed consolidated statement of comprehensive income, the interim condensed consolidated statement of changes in equity and the interim condensed consolidated statement of cash flows for the six-month period then ended, and notes, comprising significant accounting policies and other explanatory information. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34 "Interim Financial Reporting". The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information of the Group is not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

Notes to the Interim Condensed Consolidated Financial Information

1 GENERAL INFORMATION

Maoyan Entertainment (the "Company") was incorporated in the Cayman Islands on December 8, 2017 as an exempted company with limited liability under the Companies Act (as revised) of the Cayman Islands. The address of the Company's registered office is Walkers Corporate Limited, Cayman Corporate Centre, 190 Elgin Avenue, George Town, Grand Cayman KY1-9008, Cayman Islands. The Company's shares have been listed on the Main Board of The Stock Exchange of Hong Kong Limited on February 4, 2019.

The Company is an investment holding company. The Company and its subsidiaries, including structured entities (collectively, the "Group"), are principally engaged in the provision of online entertainment ticketing services, entertainment content services, movies and TV series investments, advertising services and others to users in the People's Republic of China (the "PRC").

The interim condensed consolidated financial information ("Interim Financial Information") is presented in Renminbi ("RMB") and all values are rounded to the nearest thousand (RMB'000) except when otherwise indicated.

This Interim Financial Information was approved for issue by the board of directors on August 18, 2022 and has not been audited.

2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

The Interim Financial Information for the six months ended June 30, 2022 has been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" and should be read in conjunction with the annual consolidated financial statements for year ended December 31, 2021 ("2021 Financial Statements"), which have been prepared in accordance with International Financial Reporting Standards ("IFRSs").

2.2 Summary of significant accounting policies

The accounting policies applied are consistent with those of the 2021 Financial Statements, as described in those annual consolidated financial statements, except for the adoption of amended IFRSs effective as of January 1, 2022. Income tax expense was recognised based on management's estimate of the annual income tax rate expected for the full financial year.

New and amended standards adopted by the Group

The Group has applied new and amended standards effective for the financial period beginning on January 1, 2022. The adoption of these new and revised standards does not have any significant impact on the interim condensed consolidated financial information.

Notes to the Interim Condensed Consolidated Financial Information

2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

2.2 Summary of significant accounting policies *(Continued)*

New and amended standards and interpretations not yet adopted

Up to the date of issuance of this report, the International Accounting Standards Board has issued the following new standards and amendments to existing standards which are not yet effective and have not been early adopted by the Group:

		Effective for annual periods beginning on or after
Amendments to IAS 1	Classification of liabilities as current or non-current	January 1, 2023
Amendments to IAS 1 and IFRS Practice Statement 2	Disclosure of Accounting Policies	January 1, 2023
Amendments to IAS 8	Definition of Accounting Estimates	January 1, 2023
Amendments to IAS 12	Deferred tax related to assets and liabilities arising from a single transaction	January 1, 2023
IFRS 17 and Amendments to IFRS 17	Insurance contract	January 1, 2023
Amendments to IFRS 10 and IAS 28	Sale or contribution of assets between an investor and its associate or joint venture	To be determined

2.3 Subsidiaries controlled through contractual arrangements

Maoyan Entertainment (HK) Limited (“Maoyan Entertainment HK”), the subsidiary of the Group, established Tianjin Maoyan Weying Technology Co., Ltd (the “WFOE”), has entered into the contractual arrangements (“Contractual Arrangements”) with Tianjin Maoyan Weying Cultural Media Co., Ltd. (“Tianjin Maoyan Weying”) and its registered shareholders, which enables the WFOE and the Group to:

- Exercise effective control over the Tianjin Maoyan Weying and its subsidiaries (the “Operating Entities”);
- Exercise equity holders’ voting rights of the Operating Entities;
- Receive substantially all of the economic interests and returns generated by the Operating Entities in consideration for the technical support, consulting and other services provided exclusively by the WFOE, at the WFOE’s discretion;

Notes to the Interim Condensed Consolidated Financial Information

2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

2.3 Subsidiaries controlled through contractual arrangements *(Continued)*

- Obtain an irrevocable and exclusive right to purchase all equity interests in Tianjin Maoyan Weying from its registered shareholders at a nominal consideration unless the relevant government authorities request that another amount be used as the purchase consideration and in which case the purchase consideration shall be such amount. Where the purchase consideration is required by the relevant government authorities to be an amount other than a nominal amount, the registered shareholders of Tianjin Maoyan Weying shall return the amount of purchase consideration they have received to the WFOE. At the WFOE's request, the registered shareholders of Tianjin Maoyan Weying will promptly and unconditionally transfer their respective equity interests of Tianjin Maoyan Weying to the WFOE (or its designee within the Group) after the WFOE exercises its purchase right; and
- Obtain pledges over the entire equity interests in Tianjin Maoyan Weying from its registered shareholders to secure, among others, performance of their obligations under the Contractual Arrangements.

The Group does not have any equity interest in the Operating Entities. However, as a result of the Contractual Arrangements, the Group has rights to variable returns from its involvement with the Operating Entities and has the ability to affect those returns through its power over the Operating Entities and is considered to control the Operating Entities. Consequently, the Company regards the Operating Entities as controlled structure entities and consolidated the financial position and results of operations of these entities in the condensed consolidated financial statements of the Group during the six months ended June 30, 2022 and consolidated financial statements of the Group during the years ended December 31, 2021.

Nevertheless, there are still uncertainties regarding the interpretation and application of current and future PRC laws and regulations. The Directors of the Group, based on the advice of its legal counsel, consider that the use of Contractual Arrangements does not constitute a breach of relevant laws and regulations.

3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the Interim Financial Information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this Interim Financial Information, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the 2021 Financial Statements.

Notes to the Interim Condensed Consolidated Financial Information

4 FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

4.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, fair value interest rate risk and price risk), credit risk and liquidity risk.

This Interim Financial Information does not include all financial risk management information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the 2021 Financial Statements.

There have been no material changes in the risk management policies since December 31, 2021.

4.2 Credit risk

The Group is exposed to credit risk primarily in relation to its cash and cash equivalents, restricted bank deposits and term deposit with original maturity over three months placed with banks and financial institutions as well as accounts receivables and other receivables. The carrying amount of each class of the above financial assets represents the Group's maximum exposure to credit risk in relation to the corresponding class of financial assets.

(a) *Risk management*

To manage risk arising from cash and cash equivalents, restricted bank deposits and term deposit with original maturity over three months, the Group only transacts with state-owned or reputable financial institutions in Hong Kong and mainland China. There has been no recent history of default in relation to these financial institutions. The Group has large number of debtors and there was no concentration of credit risk. The Group has monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverability of these trade and other receivables at the end of each reporting period to ensure that adequate impairment losses are made for irrecoverable amounts.

(b) *Impairment of financial assets*

The Group has three types of financial assets that are subject to the expected credit loss model:

- Cash and cash equivalents, restricted bank deposits and term deposit with original maturity over three months
- Accounts receivables
- Other receivables

While cash and cash equivalents, restricted bank deposits and term deposit with original maturity over three months are also subject to the impairment requirements of IFRS 9, the identified impairment loss was immaterial as they were placed in reputable institutions in Hong Kong and mainland China with sound credit ratings.

4.2 Credit risk *(Continued)*

(b) Impairment of financial assets *(Continued)*

Accounts receivables

The Group applies the simplified approach to provide for expected credit losses prescribed by IFRS 9, which permits the use of the lifetime expected loss provision for all accounts receivables. To measure the expected credit losses, accounts receivables have been grouped based on share credit risk characteristics and the days past due.

The expected loss rates are based on the aging profiles of accounts receivables over a period of 48 months before the June 30, 2022 or January 1, 2022 respectively and the corresponding historical credit losses expected within this period. These historical loss rates are then adjusted to reflect current and forward-looking information on macro-economic factors affecting the ability of the customers to settle the receivables. The Group has identified the “urban per capita disposable income” of the PRC in which it sells its services to be the most relevant factor, and accordingly adjusts the historical loss rates based on expected changes in this factor in different scenarios.

On such basis, the loss allowance as at June 30, 2022 and December 31, 2021 was determined as follows for accounts receivables:

	Up to 3 months	3 to 6 months	6 to 12 months	Over 1 year	Total

At the end of the period/year	202,292	198,729

Accounts receivables are written off where there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Group.

Notes to the Interim Condensed Consolidated Financial Information

4 FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS *(Continued)*

4.2 Credit risk *(Continued)*

(b) Impairment of financial assets *(Continued)*

Other receivables

Other receivables primarily comprise balances resulted from the Group's principal activities with various business partners primarily in the PRC entertainment industry. The impairment loss of these financial assets carried at amortized cost is measured based on the twelve months expected credit loss. The directors of the Company consider the probability of default upon initial recognition of asset and whether there has been significant increase in credit risk on an ongoing basis. To assess whether there is a significant increase in credit risk, the Group compares risk of a default occurring on the assets as at the reporting date with the risk of default as at the date of initial recognition. Especially the following indicators are incorporated:

- external credit rating;
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the customer's ability to meet its obligations; and
- significant changes in the expected performance and behaviour of the borrowers, including changes in the payment status of borrowers and changes in the operating results of the borrowers.

Regardless of the analysis above, a significant increase in credit risk is presumed if a debtor is more than 30 days past due in making a contractual payment. Under such case, the other receivables are classified as stage 2 and subject to lifetime expected losses provision. When the other receivables became past due for more than 90 days, they are treated as credit-impaired and therefore classified as stage 3.

A default on a financial asset is when the counterparty fails to make contractual payments when they fall due.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Group. Where other receivables have been written off, the Company continues to engage in follow-up actions such as enforcement activities to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

Management uses three categories for other receivables which reflect their credit risk and how the loss provision is determined for each of those categories. These internal credit risk ratings are aligned to external credit rating companies including Moody's.

4 FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS *(Continued)*

4.2 Credit risk *(Continued)*

(b) Impairment of financial assets *(Continued)*

Other receivables *(Continued)*

A summary of the assumptions underpinning the Group's expected credit loss model on other receivables is as follows:

Category	The Group's definition of category	Basis for recognition of expected credit loss provision
Stage 1	Other receivables whose credit risk is in line with original expectations and/or past due for less than 30 days.	12 month expected losses. Where the expected lifetime of an asset is less than 12 months, expected losses are measured at its expected lifetime
Stage 2	Other receivables for which a significant increase has occurred compared to original expectations; A significant increase in credit risk is presumed if interest and/or principal repayments are past due for more than 30 days but less than 90 days.	Lifetime expected losses
Stage 3	Interest and/or principal repayments are more than 90 days past due or it becomes probable a customer will enter bankruptcy.	Lifetime expected losses

In calculating the expected credit loss rates, the Group considers historical loss rates for each category of debtors, and adjusts for forward-looking macroeconomic data.

At the end of the period/year	439,764	438,746

As at June 30, 2022, the maximum credit risk exposure of other receivables amounted to approximately RMB1,083,804,000 (as at December 31, 2021: approximately RMB976,700,000).

4.3 Liquidity risk

Compared to the year ended December 31, 2021, there was no material change in the contractual undiscounted cash outflows for financial liabilities. The Group exercises prudent liquidity risk management by maintaining sufficient cash and bank balances. The Group's liquidity risk is further mitigated through the availability of financing through its own cash resources and the availability of banking facilities to meet its financial commitments. In the opinion of the directors of the Company, the Group does not have any significant liquidity risk.

4.4 Fair value estimation

The table below analyses financial instruments carried at fair value, by the levels of inputs to valuation techniques. The inputs to valuation techniques are categorised into three levels within a fair value hierarchy, as follows:

- Level 1 – Quoted prices unadjusted in active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly that is, as prices or indirectly that is, derived from prices.
- Level 3 – Inputs for the asset or liability that are not based on observable market data that is, unobservable inputs.

The following table presents the Group's financial assets that are measured at fair value as at June 30, 2022.

The fair value of financial instruments traded in active markets is determined based on quoted market prices at the end of the reporting period. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in level 1.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required for evaluating the fair value of a financial instrument are observable, the instrument is included in level 2.

If one or more of the significant inputs are not based on observable market data, the instrument is included in level 3.

4 FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS *(Continued)*

4.4 Fair value estimation *(Continued)*

Specific valuation techniques used to value financial instruments include:

- Dealer quotes for similar instruments;
- Other techniques, such as discounted cash flow analysis, are used to determine fair value for financial instruments.

During the six months ended June 30, 2022 and the year ended December 31, 2021, there was no transfer between level 1, 2 and 3 for recurring fair value measurements.

Valuation processes of the Group (Level 3)

The Group has a team of personnel who performs valuation on these level 3 instruments for financial reporting purposes. On an semi-annual basis, the team adopts various valuation techniques to determine the fair value of the Group's level 3 instruments.

The components of the level 3 instruments mainly include investments in investments in movies and TV series and unlisted investments. As these instruments are not traded in an active market, their fair values have been determined using various applicable valuation techniques, including discounted cash flows approach and comparable transactions approach, etc. Major assumptions used in the valuation include historical financial results, assumptions about future growth rates, estimates of weighted average cost of capital (WACC), recent market transactions, discount for lack of marketability and other exposure etc. The fair value of these instruments determined by the Group requires significant judgement, including the likelihood of non-performing by the investee company, financial performance of the investee company, market value of comparable companies as well as discount rate, etc.

The investments in movies and TV series mainly represent the investments in certain movies and TV series. The Group used discounted cash flows approach to evaluate the fair value of the investments in movies and TV series as at June 30, 2022. Based on the Group's evaluation, fair value gains of the investments amounting to approximately RMB11,056,000 (during the six months ended June 30, 2021: fair value losses of the investments amounting to approximately RMB8,297,000) had been recognized under "revenue" for the six months ended June 30, 2022 (Note 6).

4 FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS *(Continued)*

4.4 Fair value estimation *(Continued)*

Valuation processes of the Group (Level 3) (Continued)

The unlisted investments represent the investments in certain privately owned companies. The Group used discounted cash flows approach to evaluate the fair value of the unlisted investments as at June 30, 2022. Besides, management is of the view that there is no significant change in fair value of the unlisted investments which are acquired close to June 30, 2022 during the six months ended June 30, 2022, unless there is available information about latest round of financing.

The carrying amounts of the Group's financial assets and liabilities including cash and cash equivalents, restricted bank deposits, term deposit with original maturity over three months, accounts receivable, other receivables, accounts payable, other payables and borrowings approximate to their fair values due to their short maturities.

5 SEGMENT INFORMATION

The Group's business activities, for which discrete financial statements are available, are regularly reviewed and evaluated by the chief operating decision-makers.

As a result of this evaluation, the executive directors of the Group consider that the Group's operations are operated and managed as a single segment; accordingly no segment information is presented.

The Company is domiciled in the Cayman Islands while the Group mainly operates its businesses in the PRC and earns substantially all of the revenue from external customers in the PRC.

As at June 30, 2022, substantially all of the non-current assets were located in the PRC.

11 EARNINGS PER SHARE (*Continued*)

(b) Diluted earnings per share

	Six months ended June 30,	
	2022 (Unaudited)	2021 (Unaudited)
Profit attributable to equity holders of the Company (RMB'000)	151,865	387,077
Total weighted average number of shares outstanding (thousand)	1,142,761	1,139,631
Adjustments for share-based compensation – share options (thousand)	458	1,353
Adjustments for share-based compensation – RSUs (thousand)	1,762	3,427
Weighted average number of shares for diluted earnings per share (thousand)	1,144,981	1,144,411
Diluted earnings per share (in RMB)	0.13	0.34

Diluted earnings per share are calculated by adjusting the weighted average number of shares outstanding to assume conversion of all dilutive potential shares.

For the six months ended June 30, 2022 and 2021, the Company had dilutive potential ordinary shares of share options and restricted stock units ("RSUs") granted to employees (Note 27). The number of shares that would have been issued assuming the exercise of the share options less the number of shares that would have been issued at assumed exercise price (determined as any amount that the employees must pay upon exercise and the balance of any amounts calculated under IFRS that have not yet been charged to income statement) are incremental shares issued for nil consideration which causes dilution to earnings per share. The number of shares that would have been issued also assuming the exercise of the RSUs less the number of shares that would have been issued at assumed exercise price (determined as the balance of any amounts calculated under IFRS that have not yet been charged to income statement) are incremental shares issued for nil consideration which causes dilution to earnings per share.

12 DIVIDENDS

No dividends have been paid or declared by the Company during the six months ended June 30, 2022 (during the six months ended June 30, 2021: Nil).

(iii) Fair value of options

The group used the Binomial Model and Monte Carlo Model to estimate the fair value of the options as at the respective grant dates during the prior financial years. The variables and assumptions used in computing the fair value of the share options are based on the directors' best estimate. The value of an option varies with different variables of certain subjective assumptions.

The Group has to estimate the expected yearly percentage of grantees that will stay within the Group at the end of the vesting periods of the share options (the "Expected Retention Rate") in order to determine the amount of share-based compensation expenses charged to the consolidated statement of comprehensive income. As at June 30, 2022 and December 31, 2021, the Expected Retention Rate was assessed to be 85.5% and 95.0%, respectively.

(iv) Post-IPO RSU Scheme

On May 1, 2022, the board of directors of the Company resolved to grant a total of 200,000 restricted share units under RSU Scheme to employees of the Group. A total of 100,000, 50,000 and 50,000 of the restricted shares will vest on May 1, 2024, May 1, 2025 and May 1, 2026 respectively, subject to the accomplishment of certain service conditions. The fair value of the restricted shares amounted to RMB1,043,000 and was determined with reference to the share price of the Company on May 3, 2022 of HKD6.10 (equivalent to RMB5.22).

Movements of the Post-IPO RSU granted are as follows:

	Number of shares

30 FROZEN EQUITY INTERESTS OF TIANJIN MAOYAN WEYING CULTURAL MEDIA CO., LTD.

As disclosed in Note 2.3, Tianjin Maoyan Weying is a PRC Subsidiary Controlled by the Group through Contractual Arrangements. Beijing Shiji Weying Culture Development Co., Ltd. ("Weying Culture") is a registered shareholder of Tianjin Maoyan Weying and holds approximately 26.9% equity interests (the "Equity Interests") of Tianjin Maoyan Weying. As at June 30, 2022, the Equity Interests were frozen due to the following case:

Notes to the Interim Condensed Consolidated Financial Information

30 FROZEN EQUITY INTERESTS OF TIANJIN MAOYAN WEYING CULTURAL MEDIA CO., LTD. *(Continued)*

Beijing Weying Shidai Technology Co., Ltd. (“Weying Technology”), an affiliated company of Weying Culture, which transferred the Equity Interests to Weying Culture in 2018 for preparation the listing of the company (the “Transfer”). Prior to the Transfer, Weying Technology originally entered into contractual agreements with the WFOE, Tianjin Maoyan Weying and its registered shareholders in July 2018. Subsequent to the Transfer, Weying Culture signed the contractual agreements in August 2018 as part of the Contractual Arrangements as disclosed in Note 2.3.

Since Weying Technology was involved in certain debt disputes involving approximately USD6,058,000 with a creditor who initiated lawsuits with Weying Technology as defendant, a court in the PRC issued a civil paper (Document 2021 Jing 04 Zhi 480) (“Civil Paper 480”), pursuant to which the Equity Interests were frozen for the purpose of cancelling the Transfer and transferring the Equity Interests back to Weying Technology.

During the six months ended June 30, 2022, Weying Culture and Weying Technology have entered into settlement agreement with the debtor and are in the process of settling the debt in dispute. As at June 30, 2022 and the approval date of this Interim Financial Information, the Equity Interests are remained frozen by this case.

In response to the above case, Weying Culture and Weying Technology co-issued a letter of confirmation (the “Confirmation”) to Tianjin Maoyan Weying and WFOE, pursuant to which they agreed to comply and fulfil all the terms and conditions, responsibilities and obligations under the contractual agreements including but not limited to fully cooperating when WFOE exercises its irrevocable and exclusive right to purchase the Equity Interests, or transfer the Equity Interests to WFOE’s assignee at WFOE’s request.

The directors of the Company, based on the advice of its PRC legal advisors, considered that the Contractual Arrangements disclosed in the Note 2.3 and the Confirmation are in compliance with relevant PRC laws and regulations and are legally binding and enforceable. There is no significant impact to the consolidation of Tianjin Maoyan Weying.

31 CONTINGENCIES

The Group had no material contingent liabilities as at June 30, 2022 and December 31, 2021.

32 SUBSEQUENT EVENT

No significant events took place after June 30, 2022.
